The World's Best  
Cordless Robotic Pool Cleaners.

NEW  
PRODUCT

## AIPER SCUBA X1 PRO

Clear Louder, Shine Brighter

Discover effortless pool care with the World's First OmniSense+™ technology, mapping every inch of your pool. FlexiPath™ adapts to your pool's layout for thorough, edge-to-edge cleaning. With 5+3 adaptive modes, the Scuba X1 Pro handles all debris, keeping your pool spotless, effortlessly.

### Effortless App Monitoring

Comprehensive App Monitoring

### Smart and Smooth Pool Mapping

OmniSense+™ Mapping for Your pool

### Ultimate Ease

5+3 Cleaning Modes  
Smart Adaptive Cleaning for Energy Saving

### Unmatched Cleaning Power

WaveLine™ 2.0 Horizontal Waterline Cleaning

**6600 GPH**

Powerful Cleaning

### Mapping Your Pool with OmniSense+ Ultrasonic Sensors

Using OmniSense+™ Ultrasonic Sensors, it accurately maps your pool, avoids obstacles, and optimizes cleaning paths. Enjoy superior performance with intelligent navigation and adaptive cleaning for a spotless pool.

**360°** Mapping

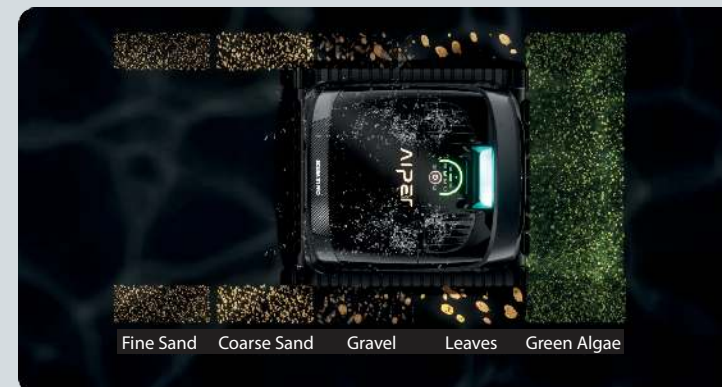

**2150 sq.ft** Cleaning Area

**Enhanced Performance with Quad-Core Intelligent Chip**

### Pool Ladders and Elevated Platforms Often Missed?

The Quad-Core Intelligent Chip powers the Scuba X1 Pro to quickly analyze your pool's conditions and calculate the most efficient cleaning strategy, ensuring maximum performance and spotless results every time.

With Aiper's unique FlexiPath™ technology, the Scuba X1 Pro senses different depth platforms while cleaning pool walls and intelligently adjusts its path. This ensures perfect cleaning of pool ladders and multi-level areas like California beaches.

### Smart Control with One-Click

One-Click Activation, Five Cleaning Modes, Three Power Adjustment

	Maximum Pool Size	Cleaning Area	Charging Time	Weight	Suction Power	Working Hours	Suction Port Width	Fall Prevention	Sand and Gravel Cleaning

# Aiper Scuba N1 Ultra

## Key Features

### Optional App Control

With the mobile app and optional communication buoy, users can control the Aiper Scuba N1 Ultra in real-time, guiding the device across your pool. Receive updates including battery life, water statistics, and more! All in the App.

### Premium Cleaning Experience

As Aiper's flagship cleaning solution, the Aiper Scuba N1 Ultra is designed for versatile, professional cleaning needs. With a powerful 130 GPM suction and dual filtration, it captures dust particles as small as 3 microns in its dustbin.

### For Large Pools

Works perfect for any underground pools up to 2150 sq.ft. (200 m²).

### Optional Solar Charging

Optional Solar Charging with solar powered panel.

### Waterline Recall

Retrieval of your Aiper Scuba N1 Ultra is easier than ever with Waterline Recall. In the Aiper App, select Waterline Recall, and the device will climb up to your waterline to be lifted from your pool by the front-mounted handle.

### Advanced Obstacle Avoidance with Infrared Sensor Technology

Four infrared sensors on the device work to detect pool walls, stairs, and large obstacles, allowing it to adapt its path for a complete clean.

### Water Quality Testing

The communications buoy is equipped with a water quality monitoring module, allowing the Diver N1 Ultra to assess your pool's water quality. Receive real-time feedback in the App, including your water's pH, ORP, and water temperature data.

### Horizontal Waterline Cleaning

The Aiper Scuba N1 Ultra can ascend to and clean the waterline vertically and horizontally, ensuring stubborn waterline stains are a thing of the past.

### Precision Multidimensional Maneuvering

Aiper Aiper Scuba N1 Ultra boasts multidirectional maneuvering with shoulder dual-jet propulsion allowing for precise movement in three dimensions.

### Cleaning Modes

Switch between multiple cleaning modes to ensure the best job for your pool is done. Use on-board buttons, the mobile app, or the device's remote control, to select between Floor, Wall, Floor + Wall, Waterline, or Periodic cleaning.

## Specs

- Battery Capacity : 10400 mAh
- Charging Time : 5 Hours

- Battery Life : 180 Mins
- Suction Power: 130 GPM(492 LPM)

## What's in the box

- 1x Aiper Scuba N1 Ultra
- 1x Retrieval Hook

- 1x DC Charger
- 1x Extra PVC Brush

- 1x User Manual
- 2\*3µm Ultra-fine Filter

## Scenarios

Ideal for IG pools

Floor, Walls, Waterline

Concrete, Fiberglass, Vinyl, Tiles

Floor Mode up to 45° Slope

2150sq.ft (200m²)  
60ft (20m) in length

## WaveLine™ Technology

Don't leave your pool's cleanliness up to chance, ensure every inch is clean with the Aiper Scuba S1 Pro. The first cordless robotic pool cleaner to feature horizontal waterline cleaning capabilities. The Scuba S1 Pro possesses impeccable flow control and infrared sensors that aid the S1 Pro in maneuvering around your pool, including the obstacles in it.

Pool Type		Performance		Cleaning Time	
Ideal Pool Type	In-ground	Motors	2 x Driver (Brushless)	Working Time	+18 Minute

# AIPER SCUBA S1

## Wall Climbing Capabilities

The Scuba S1 excels when it comes to your walls. The caterpillar treads provide increased traction compared to wheel based pool cleaners, allowing the Scuba S1 to even climbed sloped walls up to 105°.

## 3 Motorlu Sistem / Duvara Tırmanma Kabiliyeti

Climbing Ability

90°±15°

## Caterpillar Treads

For edge-to-edge cleaning, no matter what terrain your pool throws at it, the Aiper Scuba S1 is up to the challenge. The caterpillar treads of the Scuba S1 provide greater surfer contact with your pool. Meaning better traction, pinpoint mobility, and superior obstacle traversal along your pool's floor and walls.

# AIPER SEAGULL PRO

## Most Powerful Propulsion system

Quad-motor system  
Strong suction power and blending ability  
200w of peak power, Big battery, 150mins Runtime

## Quad-motor system

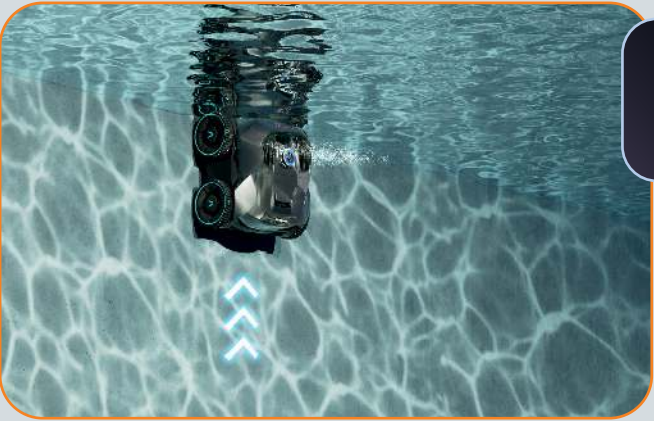

The world's first implementation of a quad-motor system in a cordless robotic pool cleaner. The Seagull pro is engineered for its motors to perform specialized functions at their highest efficiency while cleaning yourpool. Two motors to suction power and two motors to itsbrushes. These dedicated power systems increase powerability, and cleaning performance.

WavePath™ Navigation Technology

# AIPER SCUBA E1

## Tri-Motor System

The Scuba E1 is among the most efficient, most robust cordless robotic pool cleaners designed specifically for above-ground pools thanks to its powerful tri-motor system.

## Advanced Particle Filtration

180µm

The primary filter with a mesh size of 180 micrometers is specifically designed to clean visible particles, effectively filtering out common debris and stains found in most pools.

3 µm

The ultra-fine filter is tailored for invisible particles, effectively filtering out common pool issues such as green algae and micro-organisms.

Pool Type		Performance		Cleaning Time	
Ideal Pool Type	Above ground	Motors	1 x Driver	Working Time	100 Minute
Pool size	100 m <sup>2</sup>		1 x Pump	Charging Time	3 Hours
Pool Area Coverage	Floor	Scrubbing Type	Suction and 1 Bottom Roller	Cleaning Mode	Floor
		Suction Power	60 GPM		
		Filtration	180µm	Filter Basket	3.6 L

# AIPER SCUBA SE

## Hydro Dynamic Design Enhances Performance

The Scuba SE's hydrodynamic design allows the device to flow through your pool as it propels across the pool floor picking up dirt and debris. The design allows the Scuba SE to use less power in propulsion and dedicate that power to its cleaning capabilities. While other bulky corded cleaners consume additional power to simply move, the Scuba SE is designed to utilize its maximum potential to clean your pool's floor and continue cleaning for a full 100 minutes.

Hydro Dynamic Design Enhances Performance

Audio Alert System

90 Minutes Battery Life

Pool Type		Performance		Cleaning Time	
Ideal Pool Type	Above ground	Motors	2 x Pump	Working Time	+90 Minute
Pool size	80 m <sup>2</sup>			Charging Time	3 Hours
Pool Area Coverage	Floor	Scrubbing Type	Suction and 2 Bottom Roller		
		Suction Power	20 GPM		
		Filtration	180µm	Filter Basket	2 L

## 90 Minutes Battery Life

This small but mighty pool cleaner is an aquatic workhorse, cleaning up to 100 minutes and providing maximum coverage of your pool's floor. A fantastic value for pools up to 860 square feet.

## Auto-Parking

Simplicity and convenience come together in the Scuba SE. The device will park near the edge of your pool when the battery is low for easy retrieval.

## Cordless, As It Should Be

Eliminate hassle, tangles, and trips by joining the times and cutting the cord. While some pool cleaners are still doing plug-and-play, making storage a hassle, the Scuba SE is completely cordless, making it lighter, more portable, easier to store and most importantly, safer..

## Hydro Dynamic Design Enhances Performance

## Three Motors

Thanks to its powerful three-motor system, the Scuba E1 is among the most efficient and robust cordless robotic pool cleaners specifically designed for above-ground pools.

## 60GPM

### Drainage Motor

The additional drainage motor delivers maximum power of up to 60 GPM.

### Dual-Motor-Driven

The dual-motor-driven unit substantially increases efficiency by eliminating the need to generate power, preventing the robot from getting stuck during operation.

## Lower Roll Brush

Other robotic pool cleaners treat every pool the same, which can result in scuff marks, corners getting stuck, or dirt and debris being pushed aside.

Leaves Twigs Hair Gravel Insects Microorganisms

## Comparison Filter capacity

The Scuba E1 holds 80% more debris than the Scuba X1, which itself stores 50% more debris than all other robotic pool cleaners on the market.
